

L5.AI

Technology Partner for Intelligent Conversational AI Solutions

Kore.ai is a leading conversational AI platform that enables businesses to create and manage intelligent virtual assistants and chatbots. It provides tools for natural language processing, machine learning, and automation, allowing organizations to enhance customer interactions and streamline operations through AI-driven conversations.

Onboarding & Implementation

Typically completed in 2 to 4 weeks, depending on the complexity of the organization. We set up essential conversational flows and integrations tailored to your business needs.

Conversational Workflow Automation

The initial setup includes 1-2 conversational workflows, with the potential to expand based on your evolving business requirements.

AI and NLP Expertise

With extensive experience in AI and natural language processing, our team brings valuable insights to Kore.ai, specifically catering to various industries and use cases.

Customization & Personalization

We ensure that Kore.ai aligns with your business functions, optimizing it for customer service, HR, IT support, and more.

Long-Term Evolution & Scalability

We support businesses over a 12 to 36-month period, expanding functionalities with additional conversational flows, integrations, and analytics as needed.

Typical Use Cases for Kore.ai

Kore.ai is widely utilized across various industries for different business functions, including:

Sales and Marketing

Engaging customers through personalized interactions and lead generation via chatbots.

Employee Services

Streamlining HR-related queries, onboarding, and internal support through conversational interfaces.

Customer Support

Automating responses to frequently asked questions and providing 24/7 support through chatbots.

IT Helpdesk

Managing internal IT support requests and incidents with structured conversational workflows.

Our Other Services

Advisory & Consulting

Accelerated Onboarding. Go live in 2-4 weeks with our ACT (Accelerated Customer Transformation) approach. Additional services available for data and content migrations.

Strategic Services

Ongoing guidance, support, and improvements to maximize platform value. We provide process consulting, change management, integrations, and continuous optimization to drive long-term success.

Software Licensing & Resale

As an authorized reseller, we provide options to simplify software purchases, get licenses and services together. Additionally, we offer access to exclusive L5 solutions.
